Program Chairman, Nathan Preston, was unavailable to introduce our guest speaker today so Mr. Ron Brohammer, City Administrator and fellow Kiwanis member introduced Haley Morrissey, Recreation Director for the City of Richmond as our speaker for today.

Haley talked about and gave a hand out about her many recreation activities for young and old alike. But the thrust of her message, assisted by Mr. Brohammer was the need for a new gymnasium floor. They gave several reasons for that need. Most important was that the floor is in really bad shape, there are soft spots, and it was built in 1954 making it almost 60 years old. It needs replaced and they soon expect to start a capital improvement campaign to replace the flooring and an estimated cost of around \$130,000 to upwards of \$150,000. We need it. It has serve us well and an new one can serve us even better encouraging even more use in the future. Thanks Haley for your presentation.
